

Patient Consent Form

Any Denture or Partial Denture made within a year after teeth are extracted is considered an immediate Denture or an immediate Partial Denture and will have to be remade or relined at the prevailing fee as the gums heal and shrink. Temporary liners are available to help you through this period.

A Removable Denture or Partial Denture is considered a service provided as treatment for your dental problems. Even the best dentures are only 30% as effective as healthy, natural teeth for chewing. Therefore, there are no guarantees or refunds other than the one year breakage caused by normal use warranty for the Ultimate style and the 90 day breakage caused by normal use warranty for the Custom style.

Surgery Patients

The following complications are possible:

- **Pain, swelling, bruising**
- **Infection**
- **Dry socket**
- **Broken tooth roots remaining in jaw bone**
- **Damage to adjacent teeth**
- **Numbness following surgery**
- **Opening into sinus and/or tooth or root pushed into sinus**
- **Allergic reactions to anesthesia or prescribed drugs**
- **Symptoms may not be relieved and additional treatment may be necessary.**

Please consult our office or a medical doctor if you are having serious problems such as excessive bleeding, swelling, or fever. I have read the privacy policy posted at the front desk and online. I understand that none of my personal information will be released without my written permission except for the exceptions stated in the privacy policy. I have been advised of alternate treatments for my condition and agree to the dental treatment recommended by the attending Dentist.
